

Simplicity and elegance featured this new proposal of Light Drops Design, BAMBOO, is a suspension lamp characterized by minimal design; it can be used individually or from three elements linear compositions. SHANGAI BAMBOO is a special version of the suspension where three elements intersect each other creating an original game of volumes and bright effects projected on the underlying plans. Composed by three 25 mm diameter metallic tubes, which keep inside a 3W Led. The design is completed by the characteristic red fabric power cord.

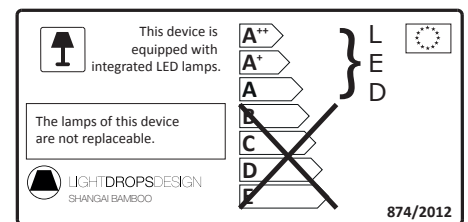

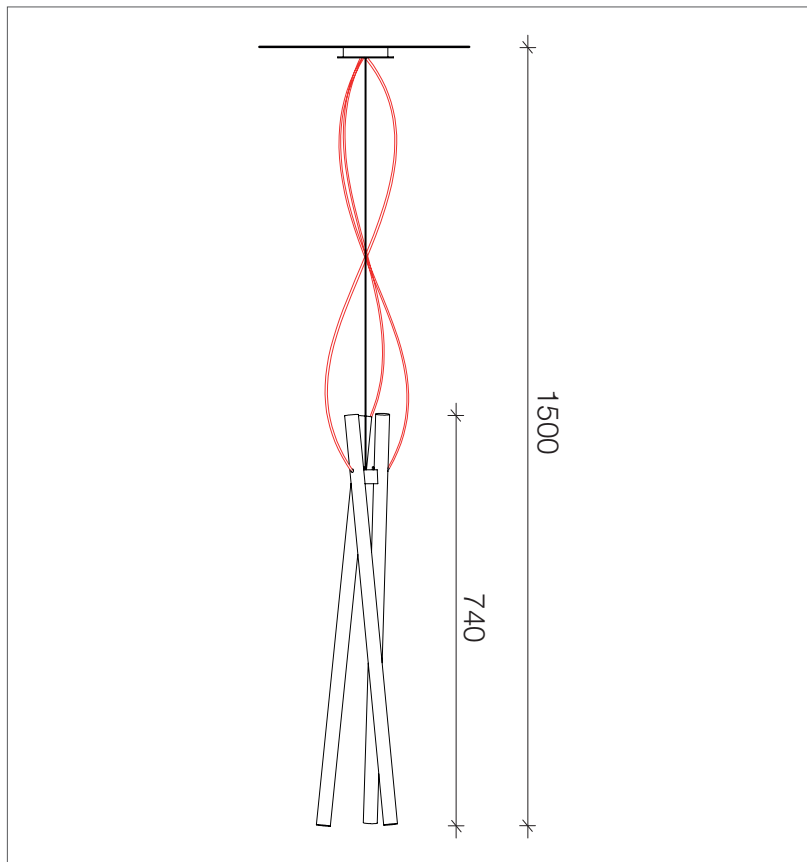

DESCRIPTION

Suspension lamp with direct light.
Composition of three elements.
Painted metal structure.
Red decorative electric cable.
Unique diameter Ø 2,5 cm.
