

Experimentation and innovation were chosen to define this lighting fixture like a string to the definition of these lighting fixtures, this design is produced with high technology to achieve maximum performance. The LED light beam emitted aims to illuminate accurately specific areas, while the glass terminal enhances its presence in the light diffusion. The design is complemented by the characteristic textile power cord covered in red colour. Proposed in various standard finishes with ample possibilities for customization.

DESCRIPTION

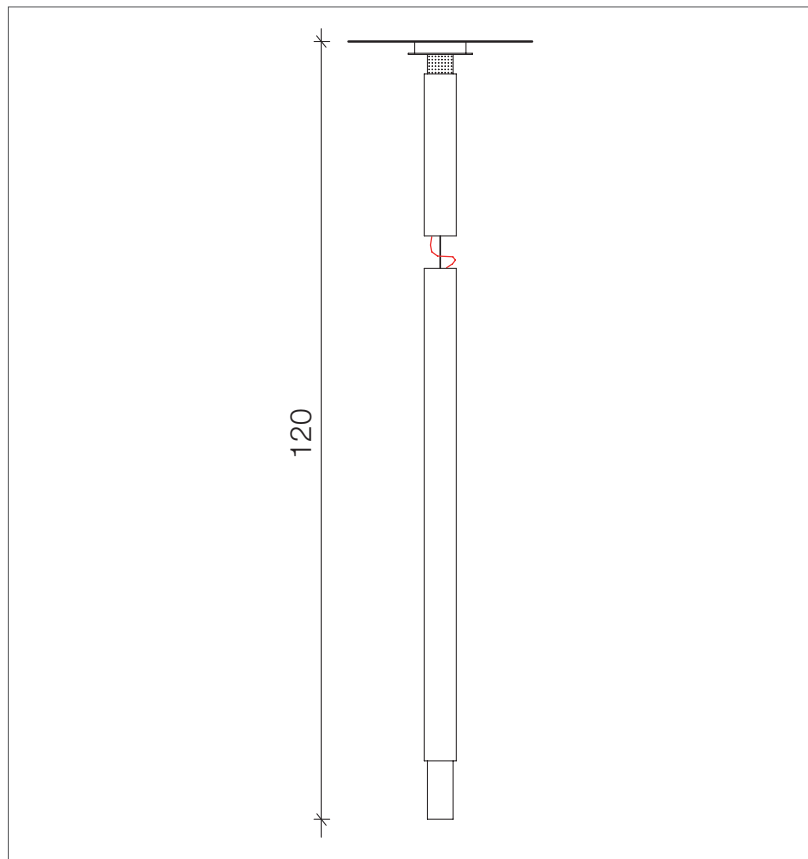

Suspension lamp with direct light.
Painted metal structure.
Glass terminal element.
Red decorative electric cable.
Unique diameter Ø5 cm.
